- Created 6 Original google slides to improve the learning experience of codepath classes at Hunter.

Tech:NYC x L4L Internship   July 14th 2021 - August 18th 2021
- Creates 11 mock up pages of a website
- Learning designing, marketing and website coding skill taught by professionals

PROJECTS

- I created and organized a discord server with 700+ members, hired 11 volunteer staff to maintain the discord server. The discord server is a platform where CS majors can form community bonds and be educated on assignments or school news.In the discord I actively helped students on assignments for all coding classes for over 50+ members.
- RentAHome app created by a team of students. The purpose of the app is to showcase our knowledge in the codepath course and to make renting easier for both landlord and the rentee. I'm one of the software engineers for this android app. I helped linking the databases to the application, created compose fragment for the bottom navigation bar, wrote nearly 3000 lines of code, and helped debug errors(URL: https://github.com/RentaHomeCodepath/RentAHome)

AWARDS/CREDENTIAL

- Certificate of completion of codepath course Professional Android
- The Eva Kastan Grove Scholarship
- Certificate of Achievement Codepath Tech Fellow Society
- EverUp Micro-Credential in Software Engineering(100-hour certification from the New York Jobs CEO Council and CUNY)

EXTRACURRICULAR ACTIVITIES

Hunter Codefest Hackathon 2021   Dec 11st, 2021- Feb 2nd 2021
Hunter Codefest Hackathon 2020   Dec 21st, 2020- Feb 2nd 2021
